Sir:

In order to comply with Requirements for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures, 37 C.F.R. §§ 1.821-1.825, Applicant submits herewith two computer readable copies and one paper copy of the Sequence Listing. The sequence information contained on the computer readable disks and paper copy were prepared through the use of the software program "PatentIn version 3.2" and is identical to that of the paper copy of the sequences originally submitted with the application. This submission introduces no new matter since the enclosed sequences are identical to the sequences which were submitted in the original patent application.

If the Examiner believes a telephone conference would expedite prosecution of this application, please telephone the undersigned at (650) 989-6703.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'H-Dillon', written over a horizontal line.
